PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with strong foundations in C, C++, and JavaScript, and hands-on experience in frontend and full-stack web development. Proficient in building responsive, user-friendly applications using React.js and the MERN stack. Passionate about writing clean code, learning modern web technologies, and contributing to real world software solutions. Versatile Software Engineering Intern with experience in full-stack development, agile methodologies, and cloud-based systems. Strengths include robust problem-solving skills, ability to work well in teams, and aptitude for learning new technologies quickly. Previous roles involved enhancing software efficiency, reducing bugs, and collaborating on innovative projects with diverse teams.

- Figma

EXPERIENCE

07/2025 - 10/2025

Software Engineering Intern

Tech Mahindra Ltd. - Gurugram

- Developed responsive web interfaces utilizing Angular framework for enhanced user experience.
- Collaborated with backend team to integrate APIs, enhancing application performance and user experience.
- Employed version control systems for efficient code management and collaboration.
- Supported senior engineers in integrating new technologies, modernizing existing systems and improving functionality.
- Assisted in creating user interface designs, contributing to user-friendly web applications.
- Built LLM-powered RAG solutions leveraging n8n workflow automation, AI Agents, ChromaDB vector store, embeddings, and prompt engineering to deliver enterprise conversational assistants with knowledge retrieval, multi-step reasoning, and scalable AI-driven automation.

EDUCATION

07/2026

Bachelor of Technology (B.Tech): Computer Science Engineering
Chameli Devi Group of Institutions - Indore
GPA: 7.05

CERTIFICATIONS

- C & C++: Universal Informatics
- Prompt Engineering: Infosys Springboard
- AWS Cloud Practitioner: AWS Skill Builder
- Data Analytics Job Simulation using Tableau: Deloitte, Forage

ACHIEVEMENT

- Participated in a college level hackathon HackWave (36-hour), collaborating on real world problem solving.
- Received a hardware kit from IIT Bombay for participation in the e-Yantra Robotics Competition.

PROJECTS

- AI-Powered Poetry & Story Generator, React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, JWT, Nodemailer, Tailwind CSS, Designed and developed a full-stack AI-powered content generation platform for stories, poems, and jokes., Implemented secure JWT authentication with email verification, OTP-based password reset, and refresh token rotation., Integrated the Groq AI API to generate creative content and built RESTful APIs using the MVC architecture.
- Smart Traffic AI, React.js, Node.js, Express.js, MongoDB, Groq AI, JWT, Nodemailer, Tailwind CSS, Designed and developed a full-stack AI-powered traffic management platform with real-time traffic monitoring., Implemented secure JWT authentication, bcrypt password hashing, and protected API routes., Integrated A
- Pathfinding and ML-based congestion prediction for optimized route planning.

INTERNSHIP

UI Intern (Angular), Tech Mahindra Ltd., Gurugram, Haryana, 07/15/25, 10/15/25,
Developed and improved responsive web interface leveraging Angular framework.,
Worked closely with the backend team to integrate APIs and ensure seamless application performance.
